

Premium Cast Carbon 10.900

Features

This quality multi-layered cast film 10.900 has a carbon fibre embossed pattern. It will conform around compound curves, rivets, corrugations and can be applied on to textured surfaces. Our film is ideal for automotive applications covering, wing mirrors, wheel arches, dashboards and bumpers. The vinyl can also be used for general graphics & striping for vehicle bonnets, roofs and boots.

The 150 micron product has enough flexibility and conformability for full vehicle wraps and other long term outdoor applications. The liner is specially structured which allows air egress during applications.

Technical & Performance Information

Film Thickness		150 microns
Adhesive Type		Clear permanent solvent based
Release Liner		145 gsm PE coated with air egress
Artificial Weathering <small>Vertical Exposure Mid Europe</small>		5 Years
Elongation		>75%
Adhesion 20mins/180°	} 	16 N/25mm
Adhesion 24hrs/180°		18 N/25mm
Dimensional Stability		<0.4mm
Application Temperature		+20°C
Service Temperature		-40°C to +90°C

Note: Due to the embossing of the film, the film is sensitive for breaking along the embossing. Handle and elongate carefully.

Warranty

Isee2 warrants our material for one (1) year from date of shipment. The shelf life of our material is dependent on storage conditions. We recommend that the end user stores the material in the original boxes (out of direct sunlight) from our factory. We also recommend to store our material at 21°C with 50% relative humidity. Isee2 only warrants our products to be free from defects in workmanship or defects in Isee2 material. We will replace or credit any material deemed defective. No acceptance or responsibility for loss, damage or expense implied or otherwise, shall be assumed by the seller or manufacturer. User assumes all risk and liability in connection herewith.
