Do you want to increase your creative possibilities?

In today's creative market, companies are always searching for new ways to transform their clients' creative ideas into tangible products. The VersaCAMM VPI is the ideal machine for this job. With this extremely efficient integrated printer/cutter, you can make beautiful prints that are cut automatically with the highest precision. Stickers, labels, banners, displays and posters are only some of the VersaCAMM VPI's possible applications.

Professional printing and cutting

The VersaCAMM VPI series is available in two models: the 54" (137cm) wide VP-540i and the 30" (76cm) wide VP-300i. The machines stand for professional quality prints and feature the Roland Intelligent Pass Control technology for an optimal relation between speed and quality. Furthermore, the machines are highly productive and reliable. In short, the VPI is the ideal machine for service companies that wish to increase their productivity and efficiency.

TEAM ALSTARE SUZUKI WORLD SUPERBIKE SQUAD GSX - R 1000

Last-minute jobs are no longer source of great concern

Perfect for your company

The VersaCMM VPi is a compact machine that fits every production environment. The machine also meets the demands of the Energy Star label for an optimal performance/energy ratio. The practically odour free ECO-SOL Max ink is delivered in no-mess ink cartridges. In sum, the VersaCMM VPi guarantees a trouble-free production in a clean environment.

Possibility to quickly produce individualized labels and stickers

Even short runs are profitable

Easy proofing

Printing and cutting with one machine: quick, easy and versatile

Roland VersaWorks®

Roland Color

Intuitive VersaWorks software included

The VersaCAMM VPi is delivered with VersaWorks. This is a powerful RIP that allows exact reproduction of spot colours. Printing variable data is another feature of the software. Thanks to this function, you can produce a series of individualized prints, each with another photo, name, number and/or text. What's more, you can update the software online without charge.

Roland DG products that feature this environmental label meet the company's criteria for environmental consciousness, a set of standards based on ISO 14021 self-declaration type II.

ISO 14001:2004 and ISO 9001:2000 Certified

Roland pursues both environmental protection and continuous quality improvement. Under the philosophy of preserving the environment and human health, Roland is actively working to abolish organic solvents in production, to reduce and recycle waste, to reduce power use, and to purchase recycled products.

Roland constantly strives to provide the most highly reliable products available.

Roland reserves the right to make changes in specifications, materials or accessories without notice. Your actual output may vary. For optimum output quality, periodic maintenance to critical components may be required. Please contact your Roland dealer for details. No guarantee or warranty is implied other than expressly stated. Roland shall not be liable for any incidental or consequential damages, whether foreseeable or not, caused by defects in such products. All trademarks are the property of their respective owners.
